Britain-France Plan To Support Marshall Stand

Final Showdown On Issue Of
Soviet Reparations From
Germany May Develop

CRITICAL SESSION OF BIG FOUR PARLEY

By KINGSBURY SMITH
(European General Manager International
News Service)

LONDON, Dec. 15.—Authoritative conference sources said today that Britain and France will support Secretary of State Marshall if he decides on a final showdown with Russia over the issue of Soviet reparations demands from Germany.

These quarters disclosed that both the British Foreign Secretary Bevin and French Foreign Minister Bidault have assured Marshall of the backing.

Agreement Revealed

This agreement of the western powers to allow Marshall to take decisive action was revealed as western delegates predicted that some decision to end the fruitless Big Four parley may be taken this week.

The initiative for calling a halt to the current diplomatic cockfight into which the conference has developed thus rests with Marshall.

American delegates said that Marshall is reluctant to break up the fateful meeting until he is absolutely convinced that there is no hope of reaching an understanding with Russia for a sane settlement of the German and Austrian problems.

Critical Session

Today's scheduled session of the Big Four is expected to be critical. The possibility is foreseen that Soviet Foreign Minister Molotov will try to avoid further discussion of reparations and pass on to other subjects.

About a week and the shortest day of the year will arrive in our midst.

A 16-year-old News delivery boy, James Vessella, of West Pittsburg, was fortunate in bagging a 110-pound doe Saturday afternoon at 3:30 o'clock in Clearfield county.

Matthew Missey of 1219 South Jefferson was in the field just half hour on Saturday and brought down a 130-pound doe. The doe was shot in the vicinity of Kane.

There must have been quite a slaughter of deer in the woods of the state Saturday, as numerous cars were seen going through the city with the slain animals attached to the cars.

Christmas carols will be sung on the public square again tonight as a part of the holiday program here. The high school alumni chorus will be on the program to-night.

Tom Ratavsky, R. D. 3, bagged an albino doe weighing 145 pounds, Saturday morning at 9 o'clock in Warren county. Harry Stewart, R. D. 1, Pulaski, and Butch Ratavsky of R. D. 3, New Castle, were successful in bringing down 140-pound does on Saturday.

It is reported that Robert Bacon, residing near Neshaunock Falls, while hunting with a party near Oil City, Saturday, bagged a doe. Encircling the lower jaw of the animal, was a leather washer from an oil pump, fastened underneath its tongue. It had evidently been on the animal for some time, as some of the flesh had grown over the leather. The deer's feeding had not been much impeded, as it was in good condition.

Report 100 Aliens Given Deportation Immunity

WASHINGTON, Dec. 15.—(INS)—A Senate official revealed today that more than 100 aliens facing deportation have been granted immunity against expulsion from the United States because of senatorial "courtesy."

Richard Arens, director of the Senate Subcommittee on Immigration and Naturalization, disclosed that immigration authorities have agreed to stay the deportation of the aliens.

Edward J. Shaughnessy, special assistant to Watson B. Miller, commissioner of Immigration and Naturalization, said there was an "understanding" with the Judiciary Subcommittee, which is headed by Sen. Revercomb (R. W. Va.).

Arens explained that the understanding with immigration authorities was that "on introduction of a private bill there will be no deportation, except in exceptional cases, pending action by Congress." He recalled only three "exceptional" cases this year.

More than 100—the exact number was in dispute and may be closer to 200—private bills have been sponsored in the Senate this year. They permit aliens facing deportation to remain in this country and to establish legal residence in the U. S.

Disclosure that an "understanding" existed between immigration authorities and the Senate came almost a year after Attorney Gen. Clark complained about the situation which had grown up over the past 12 years.

Wide-Open Split In French Labor Ranks Reported

Anti-Communist Member-
ship Decides To Estab-
lish Own Unions

RUSSIA-FRANCE TENSION MOUNTS

By ROBERT PARKER
(U. S. Staff Correspondent)

PARIS, Dec. 15.—The anti-Communist membership created a wide-open split today in the French general confederation of labor by deciding to establish their own unions independent of the leftist-dominated confederation.

The action of the minority groups constituted the first concrete revolt against the Communist leadership of the labor confederation which was largely responsible for the recent nation-wide siege of strikes.

To Form Own Unions

The anti-Communists agreed to form their own independent unions for mine workers and employees of metal industries.

The action coincided with mounting tension between Russia and the French government over French expulsion of Communist agents charged with interfering in France's internal affairs.

In this connection the Paris-Press published an interview with French Foreign Minister Georges Bidault, now in Paris for the Big Four conference, in which Bidault commented sharply on Franco-Soviet relations.

Terse In Reply

Bidault was particularly terse in a reply concerning Soviet notes of protest to France after the Russians ordered expulsion of the (Continued on Page Two)

Russia's Move, Virtual Currency Repudiation, U. S. Officials Assert

By JOHN A. REICHMANN
(U. S. Staff Correspondent)

WASHINGTON, Dec. 15.—Federal Reserve officials said today that Russia's drastic devaluation of the ruble was a virtual repudiation of her currency and indicates that inflation within the Soviet is worse than outsiders had thought.

Economic experts in Washington also interpreted Moscow's decision in wiping out nine-tenths of their currency's buying power as a bold step designed to bolster the economy of her entire satellite bloc and extend opposition to the Marshall plan.

Repudiate Currency

J. Burke Knapp, associate director of Research and chief foreign currency expert of the Federal Reserve Board, said he could recall no other incident in recent history where a great power had virtually repudiated its own currency.

At the same time, Dr. Charles Prince, authority on Russian economy, declared that the devaluation of Soviet currency is designed "to (Continued on Page Fourteen)

Approximately 500 were present, which is about the employed personnel of the plant. Twenty had their dinners at the plant. These were the maintenance and kitchen who could not leave the plant. Their dinners were sent down piping hot.

Music Club Chorus Again Scores Triumph, In Singing "The Messiah" Sunday Night

Handel's oratorio, "The Messiah" presented Sunday evening for the ninth consecutive year by the Music club chorus in the First Methodist church as it has annually for the past eight years during the Christmas season as a public presentation sponsored by the Ministerial Association, received a well-deserved tribute in an attendance of approximately 1,500.

Well before 8 o'clock nearly every available seat in the auditorium, Sunday school room, and balcony was taken and a number of latecomers found only standing room.

A row of long-needed pine trees centered by an embankment of poinsettia plants formed the setting along the front of the platform.

Sing 16 Choruses

The robust choir of over 130 voices sang 16 magnificent choruses of the oratorio in its three parts, The Prophecy, The Crucifixion and Ascension, and The Fulfillment. Speculation Will Involve Former Cabinet Officer

By FRANK B. ALLEN
(U. S. Staff Correspondent)

WASHINGTON, Dec. 15.—Chairman Bridges (R. N. H.), said today his senate appropriations committee's investigation of commodity speculation will involve "a former cabinet officer who now is urging lower prices."

The Republican senator, whose committee questioned Edwin W. Pauley, special assistant to Army Secretary Royall, on his grain market operations, announced he will seek a showdown on obtaining the official list of government officials who bought 200,000 bushels or more of grain.

Asks For List

Bridges said he will ask Secretary of Agriculture Anderson, who first mentioned that public officials were speculating in foods, for a final decision on releasing the list of purchasers.

Agriculture department officials claim that they are prevented by a law protecting "business secrets" from turning over the list but Sen. Ferguson (R. Mich., de- (Continued on Page Two)

Truman Will Send Marshall Plan Message

Tells Congressmen That
Message Will Be Pre-
sented This Week

STOP GAP AID BILL NEAR FINAL ACTION

By RAYMOND WILCOVE
(U. S. Staff Correspondent)

WASHINGTON, Dec. 15.—President Truman told congressional leaders today that his message on the Marshall plan for long-range aid to Europe will be sent to Congress this week.

The special session called for action on interim foreign aid and domestic inflation is expected to end Friday.

Although he set aside a full hour for today's conference with leaders of both major parties, Mr. Truman talked with the congressional spokesmen for only 20 minutes.

Sen. Vandenberg (R. Mich.), one of the nine Capitol Hill bigwigs who attended the conference, said the president merely wanted to learn when the special session would adjourn, so his Marshall plan message could be submitted prior to that date.

No Advance Views

Vandenberg and Senate Majority Leader White (R. Maine), said the chief executive gave no advance details of his views on the multi-billion dollar aid program. Vandenberg commented:

"He just wanted to notify us that the Marshall plan message would come up this week. He (Continued on Page Fourteen)

Report Jewish Defense Forces Hurl Arabs Back

By BENN FELLER
(U. S. Staff Correspondent)

JERUSALEM, Dec. 15.—Jewish defense forces were reported to have smashed back Arab units from advanced positions in a new assault today in the embattled Tel Aviv-Jaffa frontier region.

The Arabs were said to have suffered numerous casualties.

The new Tel Aviv-Jaffa clash took place as a frontier force belonging to Transjordan units was blown up in the eastern part of Jerusalem. One of the Arab soldiers in the car was wounded by the blast near the Mustashfa police station which was believed to have been caused by Jews.

A spokesman for the Jewish agency meanwhile voiced a demand for immediate withdrawal of units of the Transjordan Arab Legion which had been patrolling Palestine.

He declared that if the legionnaires are not withdrawn from all of Palestine they at least should be removed to the strictly Arab areas of the Holy Land.

The spokesman said this demand will be placed before authorities in Jerusalem, London and Washington within the next 24 hours.

The demand follows a clash yesterday between Jews and Arab legionnaires in which 14 Jews were killed and 12 wounded.

The toll of dead and injured in the two weeks since the United Nations decided on partition of the Holy Land mounted meanwhile to 855. The figure included 255 dead and about 600 wounded.

The dead included at least 129 Arabs and 114 Jews, eight British soldiers and four other persons.

agenda items, particularly the question of the future political structure of Germany.

Some delegates believe that Molotov would prefer to see the conference break down over a disagreement on establishment of a central German government rather than over the Soviet demand for 10 billion dollars in reparations.

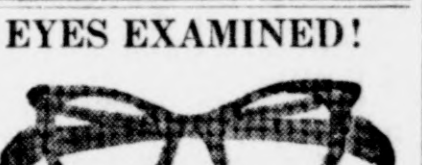

Collapse of the parley over the central government issue would give the propaganda machine of the Soviets an opportunity to tell the German people that Molotov went down fighting for the political unity of Germany.

Begin Study Of Tax Structure In Pennsylvania

By JACK WARD
(N. S. Staff Correspondent)
HARRISBURG, Dec. 15.—A broad survey of Pennsylvania taxes has been launched by a legislative sub-committee assigned to develop a new tax structure.

The special six-man committee, headed by Commerce Secretary Orus J. Matthews, held its organizational meeting at the state capitol yesterday to map plans for the study. The survey was aimed particularly at discovering tax inequities reportedly sidetracking new industry from the state.

Covers Entire Field
Matthews announced the committee would "cover the entire field on taxes" including state and local levies. A \$50,000 appropriation was earmarked for the study by the General Assembly which created the agency.

The legislature called for "ways and means of financing the commonwealth and its political subdivisions on a more scientific and equitable basis," particularly a method to "safeguard and enhance" the state's industrial position.

"The committee realizes that the tax problem is of tremendous importance to every citizen of Pennsylvania," Matthews said. "It is determined to give the matter exhaustive study and bring about the best possible tax structure."

He pointed out that tax structures between states have become vitally important "in view of the competition for new business."

Moving Fast
Matthews said preliminary studies have shown that "economic conditions between states are moving at a far more rapid pace than we realize."

Texas and California were outstanding examples of states showing remarkable growth, he asserted.

"Pennsylvania is still growing," he declared, "but not fast enough to suit us by any means."

Matthews pointed out the committee was approaching the study with welfare of the people uppermost in its aims.

He said the group agreed to hear "all people concerned at open hearings." No decisions will be made without "complete discussion of the matter with all concerned," he added.

He said the committee would study all phases of taxation, including possible state income and sales taxes, and make recommendations for a new tax structure to the governor and legislature before February 1, 1949.

Other committee members included: Frank W. Main of Pittsburgh, an accounting expert; Philip Sterling, Philadelphia lawyer and former legislator; Republican Reps. Lambert C. Cadwalader, Montgomery, and Warner M. Depuy, Pike, and Republican Sens. James A. Geltz, Allegheny, and Lloyd H. Wood, Montgomery.

Farmers Of State Will Market More Than Million Trees

STATE COLLEGE, Dec. 15.—Pennsylvania's Christmas tree farmers probably will market more than a million trees this year, according to Frank T. Murphy, professor of forestry extension at the Pennsylvania State College.

Murphy pointed out that the Keystone State leads the nation in growing Christmas trees. From a small beginning more than 15 years ago, Christmas tree growing in Pennsylvania has developed into a million-dollar industry.

Also Exports Trees
While some trees still are imported in Pennsylvania, more and more "home-grown" trees are being used each year. Pennsylvania also exports trees to points as far west as Chicago and into the New England states.

The bulk of the crop marketed by the Pennsylvania growers consists of balsam fir, Norway, red, and white spruces, Douglas fir, and Scotch pines. Growers now are experimenting with other varieties which appeal to certain consumers.

Murphy said growers also are making progress in establishing standards in regard to size, symmetry, and type of tree which will assist the growers and the consumers in the marketing of Christmas trees.

Job With Future For High Graduates

U. S. Army And Air Forces Has
Splendid Openings For Young
Men With Education

Attention of high school graduates is called by the U. S. army and air forces recruiting office here to the splendid opportunities awaiting them in either of these branches of service.

"Have you planned your future and if so is the outlook a rosy one? Are you earning a good living wage while you are learning your profession? Can you support a family on your present salary and look forward to retiring while you are still a young man?" The army and air forces is the answer to the above questions, states M-Sgt. Charles P. Walsh.

"If you are a graduate of high school and pass the necessary physical examinations, the scope of your horizon is unlimited. You can select your school before enlisting, be it officers' candidate school, cadet school or one of the many technical schools. Can we be of service to you in helping to decide your future?"

For further information concerning the above, contact your local U. S. army and U. S. air forces recruiting station located in room 202, Post Office building, or phone 7593.

Should Have Mailed Holiday Cards For Out Of State

All Christmas cards for out-of-State delivery, and all Christmas packages, should be in the mail today in order to ensure their arrival before Christmas.

"The heavy flood of gift packages and Christmas cards in post offices all over the United States makes early mailing essential," Postmaster Wm. R. Hanna explained. Christmas cards for local delivery should be mailed before December 15, he said.

"Envelopes and packages may be marked 'Do Not Open Until Christmas' if desired," the postmaster advised. "Such notes are permitted both on parcel post and on regular mail, including Christmas cards sent third-class with a 1½-cent stamp."

The postmaster warned that envelopes of third-class mail may not be sealed, either by licking the flap or by closing with Christmas seals, although Christmas seals may be affixed to the back of the envelope.

Tax Collectors In Japan Urge People Not To Pay Taxes

By JOHN R. RICH
(U. S. Staff Correspondent)

TOKYO, Dec. 15.—An American occupation official disclosed today that Japan's 28,000 tax collectors have resorted to a "biting the hand that feeds you" technique in their campaign for higher wages. They are discouraging people from paying their taxes.

Revelation of this paradoxical method was made by James S. Killen, chief of the labor division of

Gen. Douglas MacArthur's Tokyo headquarters.

The disclosure coincided with a decision by the Japanese government to spend ten billion yen for payment of a bonus amounting to 2.8 months' pay to each government employee in the form of a cost of living allowance.

Killen said that for the past two weeks Japanese tax collectors have been distributing circulars urging non-payment of taxes. He said they also have been practicing slow-downs and absenteeism.

MacArthur's labor chief scored these tactics as illegal.

More than half the people in the United States have pronounced defects in vision. Only two percent have what is called "perfect vision."

Girls Nowadays Aren't Drawing Room Type

By MARTHA KEARNEY
(I. N. S. Staff Correspondent)

WASHINGTON, Dec. 15.—No matter who she is, a girl has to be as much at home in an office as in a drawing room today if she wants the really new look.

So far in her three-month-old radio-car, the brown-haired, brown-eyed cabinet daughter has operated the station switchboard, typed envelopes and copy, wrapped prizes for children, made telephone surveys and helped to schedule programs.

Given Program

Early this week she was given a 15-minute program of "news and the woman's angle" which she has been writing herself. She still handles the switchboard afternoons, however, and makes telephone checks for the station's newscasters.

She says of her job: "Girls nowadays just aren't the drawing-room type. Everything is moving too fast. If you just settle back over the teacups and watch it, the world will pass you by."

Miss Snyder got her job by auditioning for a broadcasting berth at

Station WBCC which serves the residential suburban communities of Chevy Chase and Bethesda.

In September she was hired but stationed in front of a switchboard instead of a microphone.

She majored in dramatics both in junior college and at George Washington University, from which she was graduated in June. After a two-month European tour she got down to business and went to work.

Miss Snyder says her family approves of her job and is interested in her work. She pays her own expenses now with her salary, as she did before with her allowance.

A sandwich at a nearby soda fountain has taken the place of leisurely luncheons and gabfests. The young career girl explains: "I stay at the station all day long and never go into town."

"I'm sorry I have to miss the luncheons and teas and whatnot but you just can't work and play at the same time."

The accident occurred Sunday about seven miles west of Ebensburg. Two of O'Block's companions were injured.

Charges Russia Is Carting Away Poland's Supplies

By PIERRE LOVING
(I. N. S. Staff Correspondent)

WASHINGTON, Dec. 15.—Stanislav Mikolaczky, fugitive deputy premier of Poland, charges Russia with carting away huge supplies of coal from her satellite Poland virtually as a "German-type" reparation of the war in which both countries fought as allies.

In addition, the Polish statesman, before leaving Washington for Chicago, said that coal ostensibly allocated for domestic consumption had a "mysterious way of vanishing from the Polish consumers' market."

Mikolaczky, whose Polish Peasant party was captured by leftist elements allegedly subservient to the Warsaw regime, stated that Polish miners working under most difficult conditions managed nevertheless to achieve 60 per cent of the 1939 level of coal production. He said:

"Soviet Russia is paying a mere pittance of about \$2.40 per ton for Polish coal, whereas the price in western Europe is \$16 a ton."

The Polish exile leader added: "This price is virtual confiscation or, perhaps a form of war reparation which Poland is forced to pay her powerful neighbor to the east instead of to the west."

Hundred Million

Dollars Sought For Jewish Nation

ATLANTIC CITY, N. J., Dec. 15.—(INS)—Palestine officials left Atlantic City today for Washington to seek \$100 million in loans and grants, including arms for defense for the new Jewish nation.

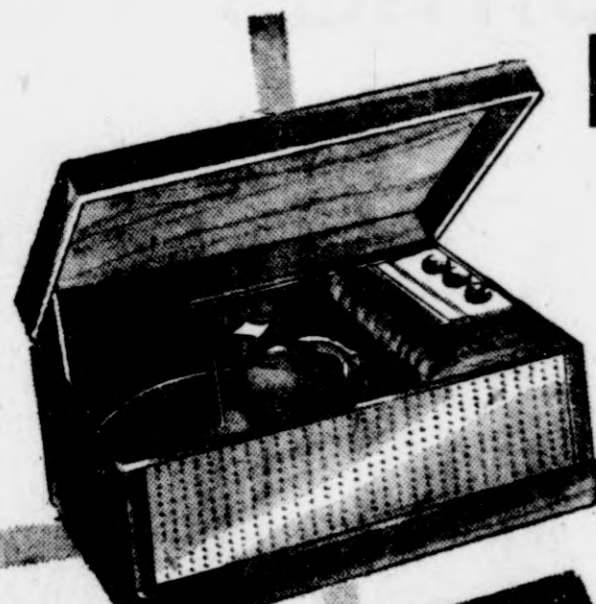

Decision to seek U. S. aid came after delegates to the national conference of the United Jewish Appeal adopted a record-breaking 1948 goal of \$250 million to be met by American Jewry, \$146 million of which is to go for Palestine activities.

This figure is little more than half of the \$263 million which leaders of the United Jewish Appeal set as a minimum to secure the foundation of the new state in 1948.

New Discovery About Anemia In Death Of Infants

CLEVELAND, Dec. 15.—(INS)—A new field of medical research was opened Saturday by the discovery of one of the basic mys-

teries about "RH factor" anemia, a major cause of infant deaths. Dr. Benjamin S. Kline of Western Reserve university in Cleveland revealed that he has determined how the bodies of mothers transmit antibodies in the blood which are fatal to unborn or newly-born babies.

Locate Anemia Cause

He said it was not known as yet how the antibodies were formed but added that medical scientists now could devote their efforts to

that end instead of trying to find how the incompatible blood components are transmitted.

Dr. Kline discovered that the fatal anemia occurs when the father and mother have opposite RH type blood. He proved that an unborn first child of such parents passes incompatible cells, inherited from the father, to the mother through the placenta.

Tea plants are evergreens, but must grow in hot, moist climates.

New Death-Dealing "Dust Sprays" Will Soon Be Developed

WASHINGTON, Dec. 15.—(INS)—The usually well-informed Army and Navy Journal predicted today that death-dealing radioactive "dust sprays" soon will be developed at the nation's new atomic experimental station on Eniwetok.

The service publication said military authorities expect the Eniwetok proving ground to produce atomic bombs "more powerful and more accurate than those we now have, which are far more destructive than the missiles dropped on Hiroshima and Nagasaki." It added:

"Foreseen is the perfection of radioactive materials for use as dust sprays capable of proving the effects of radiation, or poisoning, but without the blast and heat of the bomb itself."

Atomic Explosives
The Journal said first results of the Eniwetok experiments probably will be in the form of atomic explosives adapted to short range missiles, such as rockets. The article noted:

"This distant Pacific atoll has been selected both because of its physical qualifications for such dangerous experimentation, and because its isolation will contribute to the secrecy we must have to protect our security."

Editorially the Journal condemned recent labor disturbances at the Oak Ridge atomic center as "signs of another danger to the atomic program which must be dealt with promptly and firmly." It declared:

"In view of the terrible devastation this increasingly powerful weapon can cause, the nation cannot be at the mercy of agitators, particularly foreign inspired ones, who would be quick to use the strike to weaken our security."

Plan Burial For Former British Premier Thursday

Will Cremate Body Of Late Earl Baldwin, Forced Abdication Of King Edward

LONDON, Dec. 15.—(INS)—Funeral arrangements for Earl Baldwin, former British prime minister who died Sunday at the age of 80, will be completed today when his son, Viscount Coverdale, arrives at the Baldwin family home, Astley Hall.

It is believed that services will be held on Thursday in the Paris church of Wilton, near Bewdley in Worcestershire. Earl Baldwin attended the Wilton church as a boy.

His body will be cremated, and his ashes placed alongside those of his wife in a silver casket at Astley Hall.

Baldwin, who was a three-time prime minister, is best remembered as the man who forced the abdication of King Edward VIII—the current Duke of Windsor—in 1936.

Three Hunters In Central Part Of State Are Killed

HARRISBURG, Dec. 15.—(INS)—Two Dauphin county hunters and another from York county were listed today as victims of the one-day antlerless deer season.

The dead were: Jack J. Judy, 17, of Rutherford Heights; John F. Daniels, 48, of Lykens, R. D.; and Robert T. Wales, 19, of Felton, R. D. Judy was killed shortly after the season opened while hunting in Jefferson township, near Harrisburg.

Wales died after he was struck by a stray bullet while hunting in Clinton county. Daniels' death also was attributed to a stray bullet. He died while hunting with a party near Coudersport.

TRUMAN WILL SEND MARSHALL PLAN MESSAGE

(Continued from Page One)

wanted to know our adjournment plans to be sure he didn't miss the boat.

The senator added that Mr. Truman did not specify the exact day on which the message will be delivered.

Vandenberg added that since the special session will end Friday, there will be no time for committee hearings on the Marshall plan before the regular session of Congress in January.

Senator Taft Not Invited
All top congressional leaders except Sen. Taft (R) Ohio, Senate GOP policy chief, were present at the White House conference. Taft was not invited.

Meanwhile, emergency European relief legislation headed for the White House under threat of further congressional reductions.

The stop-gap aid bill is expected to receive final congressional approval this afternoon.

Senate-House conferees agreed on a total of \$977 million dollars for food, fuel, fertilizer, etc., the amount requested by Mr. Truman for stop-gap aid for France, Italy and Austria but actually cut the funds by including aid to China.

Actual Funds Must Be Voted

Actual funds must be voted by the appropriation committee and its subcommittee is said to have reached a preliminary agreement which includes: Elimination of aid to China and reduction of the total for aid to the three European countries by fifty to sixty million dollars.

There is said to be plenty of discussion over whether another six million, the amount suggested for China, should be cut from the funds if aid to China is eliminated.

The long-range program also appears headed for trouble. It seems certain that the Marshall plan will be whittled down in many respects and that no where near the amount of money requested for the program will be appropriated.

No action is planned until January as Republican leaders hope to end the special session Friday or Saturday.

Traynor To Help Coach Duquesne Baseball Team

Harold Joseph "Pie" Traynor, one of the greatest third basemen of all time, will be at the helm this spring, when for the first time in over two decades, baseball is revived as a University sponsored sport by the Duquesne Dukes.

The former Pirate player and manager, who needs no introduction to baseball fans will serve in an advisory capacity to Coach Charles Mues.

Athletic Director of the University, Jack Davis, announced the coaching appointments Sunday.

Broadcasting responsibilities over a Pittsburgh radio station will prevent Traynor from accompanying the Dukes on road trips, but he will be on hand during training sessions and at home games to give the Duquesne nine full benefit of his ability and judgment.

Duquesne Plays Bowling Green

PITTSBURGH, Dec. 15.—(INS)—Two of the nation's top basketball teams clash at the Pittsburgh Gardens tonight, when undefeated Bowling Green university takes the floor against undefeated Duquesne.

The invading Falcons, in winning seven straight this year, have scored 581 points.

The outstanding man on the squad, last year's high scorer, is Mac Otten. Otten scales six feet six inches and Saturday night set a new record at Madison Square Garden, sinking 15 fouls in 17 attempts as Bowling Green beat C.C.N.Y. This year Otten has been outscored only by sophomore reserve center, Charley Share, who at 6 feet 10 inches will be the tallest man on the court tonight.

Duquesne holds a win over Brigham Young in its only major game to date but on the basis of that performance is rated among the best. It will be chiefly up to six foot five inch center, Charley Cooper, to stop Otten and Share.

TESTIMONIAL IS GIVEN SUNDAY

musical director of the church and the school.

Greetings were offered by a number of visitors. Rev. Stancelowski read a number of telegrams and presented Miss Dutkiewicz with an Apostolic Benediction granted by Pope Pius XII. A letter of congratulation was read from Bishop Hugh C. Boyle and from Dr. Casper Koch, famous organist under who Miss Dutkiewicz studied.

The gifts were presented in an unusual way. Five large boxes were pushed onto the stage each with a silver letter on it. The five letters spelled "GUESS". From each of the boxes a charming little girl appeared bearing gifts for Miss Dutkiewicz. Other gifts came from various organizations of the church.

The testimonial was one well merited by long years of service. The service of Miss Dutkiewicz goes back almost to the first day of the church's existence.

MUSIC CLUB CHORUS SCORES TRIUMPH

(Continued from Page One)

from the most delicate pianissimo to the most rousing and spirited crescendo.

These were particularly noticeable in the decisive "And He Shall Purity" in the confident "For Unto Us a Child Is Born", in the concluding chorus of The Prophecy, in the familiar choruses of the second part, and in the concluding "Worthy Is the Lamb" and the Amen chorus.

As a message of praise and affirmation in music and song, the presentation owed much of its effectiveness to its soloists. Of the host church, the quartet was composed of Mrs. Edward C. O'Neill, soprano, Mrs. W. P. Felch, contralto; Earl Hammond, tenor, and Samuel McCleary, bass.

Well Presented
In the solo, "Rejoice Greatly, O Daughter of Zion", the lyric quality of Mrs. O'Neill's voice was evident and it was with quality, clear phrasing, and clear articulation that Mr. Hammond sang "Comfort Ye My People". Sympathetic warmth and depth of feeling marked Mrs. Felch's rendering of Mrs. O'Neill's concluding solo "The Trumpet Shall Sound" showed his rich range of tones and marked the climax of the joyous and triumphant third part of the oratorio.

Sunday evening's performance of "The Messiah" will stand as among the finest that have been given here of this familiar and well-loved musical work.

Adds New Laurels
Mrs. Caldwell, to whose prestige as a director for her skillful handling of the chorus during the past several seasons were added new laurels Sunday evening, had the admirable collaborator of Edwin Lewis, organist, and Miss Ruth Weir, pianist, who played the skillful accompaniments.

Miss Weir proved to be an accomplished musician of fine taste in her first performance at the piano for "The Messiah".

Superior musicianship and playing on a consistently high plane for some time not only by the outside world but by the Russian people as well.

organ accompaniment were fully up to his accustomed standard.

Invocation was offered by Rev. James A. Gaiser, announcements were made by the Rev. G. S. Bennett, D.D. who informed the audience that the performance will be rebroadcast over WKST Christmas afternoon at 3:15. Rev. James N. Rainey pronounced the benediction.

Presents Given
Following the performance many of the audiences lingered as the chorus had its picture taken and Mrs. Caldwell presented to each of the soloists a pinonsetta plant. One of the plants was then presented to Mrs. Caldwell on behalf of the chorus by Mrs. L. Paul Friend, first vice president of the Music club. She presented one also to Mr. Lewis, Miss Weir, Mrs. C. W. Cameron, secretary, and to Mrs. James W. Moorehead, chairman of publicity, for the large part they played in contributing to the success of the performance.

Ushers were Mrs. Robert E. Fleming, Mrs. John F. Love, Mrs. S. Glenn McCracken, the Misses Kathryn Bittner, Gertrude Graham, Margaret Graham, Isabel Johnson, Evelyn Bernine, Lena Richards and Barbara Schulz and the regular ushers of the First Methodist church.

Propaganda Measure
The movie provided a potent propaganda measure for the United States. Officials of the State Department said that the "Voice of America" would broadcast the news on a 24 hours basis to every country it could reach.

Under the decree, issued Sunday, one new ruble will be exchanged for 10 old ones. Moscow also announced that rationing of food and industrial goods would be abolished.

a Divine blessing. The crowd sang "America" under the direction of George Anthony. Mr. Anthony directed the pep singing.

As usual, the speaking program was short. Speakers at Universal dinners are usually short and interesting. They were Saturday night. Those who spoke included W. Keith McAfee of Redlands, Calif., chairman of the board of directors; President Clyde M. Whittaker; vice president in charge of sales, Ray Caruthers; secretary-treasurer, G. Ward Whittaker; vice president in charge of production, George E. Crawford, and John Popovich, past president of Local 233.

Veterans' Awards

Mr. McAfee presented the veterans' watches and emblems to two of the new veterans, President Whittaker and Vice President Caruthers. Mr. Whittaker then presented the emblems and watches to the following men who have completed 25 years service with the company, Frank G. Dickson, Guy Matricardi, Jerry J. Carbone, Patsy Piccirilli, Paul L. Bixler, Merritt Hammond, Mike Picciotto, Emery R. Swogger, William C. Bowman, and Albert J. Schoellkopf.

Then the entertainment. George Heid was master of ceremonies and he had with him Bernie Armstrong and his electric organ, Faye Parker, Betty Daugherty, Buddy O'Neill and Carol Hall. All of them were good, all of them added a different type of entertainment to the program.

Before the conclusion of the program Toastmaster Staley announced that the Christmas bonuses would be ready for distribution by Monday.

It was an evening of genuine pleasure and the test of its quality was the fact that hardly an employee was missing. The following committee arranged the affair: George E. Crawford, general chairman, G. Ward Whittaker, Dean M. Staley, George Steck, Dan Carroll, Bob McClurg, Bob Jones, Harry Bloomer, Thomas Williams, Edward Gunther, Carl Turner and Kenneth McCartt.

Hunter's Death Is Investigated

(Continued from Page One)

COUDERSPORT, Pa., Dec. 15.—(INS)—A coroner's investigation was underway today in the death of a Washington, Pa., glass worker one of three western Pennsylvania hunters who died during the one-day deer season.

The dead man was identified as Vincence Thomascelli, 52. His body was found partly submerged in Brown's Run, in Potter county, seven miles from Port Allegheny. Deputy Coroner Walter Taylor said he had learned a Pittsburgh man, unidentified, had found Thomascelli in the creek Saturday, built a fire for him and sat with him until he had died.

He apparently fell into the stream again, and the body was found by a searching party yesterday.

Four Veterans Probe Able Cooks

CARTHAGE, Ill.—(INS)—There were a lot of snickers when four ex-G.I.'s entered Miss Eileen Watt's cooking class at Carthage college this fall.

But not so anymore. According to Miss Watt, the men proved that their desire to learn cooking was sincere and she says their enthusiasm and interest got results, Miss Watt said:

"The men have been taken through the various processes of baking biscuits and muffins and finally I have advanced them to sponge cakes."

"They are on par with any woman in the class. They take nothing for granted and ask more questions than the women."

Took Great Pains
"They take great pains with their creations and go through every step with extreme caution. When the product is finished the men stand admiring their work; then cut into it for samples."

"Their smiles of satisfaction tell the story. They like the food."

The four cooking students are Bob Dolan, Keukuk, Ia; Sherman Stevenson, Murphysboro, Ill.; Paul Cooper, Murphysboro, and William Bradley also of Murphysboro.

Of all the men, only Dolan took the cooking class as a substitute for something else. He wanted to get in the clothing class, but entrance was refused because fitting dresses on students was always done before the class.

Valley Case

OTHER EVENTS AT COURT HOUSE

Settlement has been effected in
the suit of Cyril and Margaret
Dudas, guardians of their minor
son William Dudas in their suit
against the Enon Valley Independent
Order of Odd Fellows.

The original suit charged that
the minor son was injured when
he was hit on the head by a
counter-balance weight on the
IOOF hall in Enon Valley. A
weakened condition of the fire
escape was alleged to be the
cause.

The parents sued for \$1,000
damages but on Saturday a com-
promise was made in which the
fraternal order agrees to pay
\$381.25 in full settlement of the
claim.

SUIT FOR DAMAGES

Nick Argiro of Hillsville has
entered a suit against Pauline V.
Sharpey of Dearborn, Mich., for
\$475 damage allegedly done his
truck when the defendant's car
is said to have hit the truck on
July 29, 1946.

The claim sets out that Argiro
was driving in Route 224 near
Hillsville, at about 4:30 in the af-
ternoon. He was endeavoring to
make a left hand turn and said
he had his hand out and an auto-
matic warning up. The defend-
ant is alleged to have cut around
the left side and hit the truck,
doing the damage.

SAVE GRAIN AND CUT DAIRY HERD EXPENSE

Lawrence County dairymen see
two values in the present nation-
wide program of saving grain. One
is to provide more grain for needy
Europeans and the other is to re-
duce dairy costs.

With feed costing around \$100
a ton and the average cow con-
suming about a ton of grain during
the six winter months, care must
be taken in feeding.

Dairymen have at least two ways
in which grain can be saved and
fed for the most efficient produc-
tion of milk.

1. Cull low-producing and dis-
eased cows. There are too many
now being fed that are low in pro-
duction because they are just poor
cows or because disease in one
way or another interferes with
their production. Beef prices are
good and this is a good time to
cull out cows that are unprofitable.

2. Feeding grain by guess wastes
feed and does not put it where it
gives the greatest returns. Grain
should be fed at the rate of 1
pound for each 3 pounds of milk
produced by Guernseys and Jer-
seys; 1 pound for each 3 1/2 pounds
of milk given by Ayrshires and
Brown Swiss; and 1 pound for
every 4 pounds of milk from Hol-
steins.

Members of the dairy herd im-
provement Association may wish to
feed one pound of grain for each
pound of butterfat produced in a
week. This is simply a guide in
feeding. If quality of roughage is
poor, slightly more grain will be
needed. Other points to consider
are: condition of cows and butter-
fat tests. Use of a method of feed-
ing saves grain by not over-feeding
some cows and underfeeding
others. Be sure that the cows get
plenty of water which is needed to
obtain the best returns from the
feed consumed. Watering cups pro-
vide the best way to water cows
in the stable.

Distillers Will Answer Anderson On Grain Saving

WASHINGTON, Dec. 15.—(INS)—
The liquor distilling industry is
preparing a reply to the adminis-
tration's latest demand for long-
term curtailment of the use of
grain in whiskey making.

Secretary of Agriculture Anderson
turned to the nation's distillers
for the first industrial agreement
designed to continue the food con-
servation program through 1948.
Anderson asked the distillers to
reduce their monthly consumption
of grain by about 500,000 bushels
and to use no wheat after the cur-
rent 60-day distilling industry shut-
down ends on Christmas Day.

To Meet Wednesday
The agriculture secretary has in-
vited representatives of U. S. dis-
tilleries to meet with him Wednes-
day to discuss plans for continuing
the grain-saving practices in their
industry.

Before the whiskey-making holi-
day began, the industry was using
approximately three million
bushels of grain monthly. Anderson
said he decided to ask for the
500,000 bushel reduction after
studying both the industry's pro-
duction and capacity.

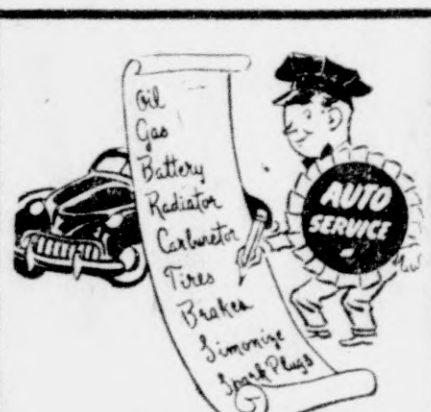

The administration previously
revealed that it planned to con-
tinue the food conservation cam-
paign, launched by Charles Luck-
man, throughout 1948.

U. S. Farmers Still Producing Enough To Share With Others

CHICAGO, Dec. 15.—(INS)—
Secretary of Agriculture Clinton
Anderson's hope for a brighter fu-
ture rests on the fact that American
farmers are still producing enough

food to enable the U. S. to share
with other nations.

In an article published in the
National Grocers Bulletin, the sec-
retary reveals that American farm-

ers this year produced one-third
more food than the pre-war aver-
age.

He said that civilian consump-
tion of food, however, greatly ex-

ceeded pre-war levels, based on
1935-39 average.

The secretary estimated that
meat consumption would go 23 per
cent above pre-war levels; canned

fruits, 28 per cent; fresh fruits,
7 per cent; canned vegetables, 41
per cent; fresh vegetables, 11 per
cent; eggs, 27 per cent; and fluid
milk and cream, 19 per cent.

Youth Is Facing
Robbery Charges

William Thomas, 23, of 411 Ne-shannock avenue, was charged by Chief of Police Robert D. Hanna with burglarizing the City News,

North Street school, and attempting to rob the First Baptist church and Jim's cafe, 467 East Washington street. The informations were made before Alderman J. C. Kennedy. He pleaded guilty.

According to police, the statements Thomas allegedly signed, he obtained \$87, cigarette lighters and cigarettes from the City News,

East Washington street, December 12. He used the money to pay bills he owed, he stated.

He allegedly stole a pencil sharpener, bench vice and six woodworking tools from the North Street school, prior to Thanksgiving Day.

Thomas said he did not steal anything at the First Baptist church.

He was caught in the rear of Jim's cafe by Policeman George Haering after he and a 14-year-old boy, who was with him, had attempted to enter the cafe December 13.

The boy was placed in charge of Juvenile Court Officer J. M. Dunlap.

Around Hollywood

By JOHN TODD
International News Service Staff Correspondent

HOLLYWOOD, Dec. 15.—Two months of restless nights and picking at her foods have ended for Rhonda Fleming, who is just too beautiful for words.

She has been that nervous and excited over having the feminine lead role opposite Bing Crosby in Paramount's "A Connecticut Yankee in King Arthur's Court." A dozen other Hollywood lovelies wanted the part, so you can see why Rhonda, with only five pictures behind her, could hardly believe her big break had come at last.

Said Rhonda: "I'm still thrilled, but I've gotten over the first excitement which kept me awake at nights. I feel now like I could sleep all the time to make up for it."

"And, I can eat, too. Six weeks of work in the picture have given me complete confidence."

Curvaceous Young Lady
Speaking was a very curvaceous young lady with red hair, green eyes and a mouth where a smile is always lurking.

Rhonda, a native of Hollywood, explained: "I think the most important thing, when you get your big break, is to be ready for it."

I once sang with a dance band, but for the past three years I had been studying voice seriously, intending to try for a career in light opera. The studio said, "We like your voice fine, but take the culture out of it. I've stopped singing like I've been taught to sing for three years."

"Then I have to dance. When I was very little, I wanted very much to be a dancer. When my mother would go out I'd dance for hours all over the house until I practically dropped from exhaustion. Finally when I was six, I had to stop. The doctor was afraid the heavy exertion would affect my heart."

"But, that experience is very helpful for me in the picture."

Champerico is a Guatemalan port, situated on the Pacific ocean, at the mouth of the Salamo, 100 miles from Guatemala. The town is connected with Acapulco, Mexico, by steamship, and is the residence of a United States consular agent. Its chief article of export is coffee.

To Alfred Russel Wallace, English naturalist and philosopher (1823-1913), we are indebted for a comprehensive work in zoogeography, a description of the distribution of animals throughout the world.

New Holiday Sales Record Seen In State

By JACK WARD
(N. S. Staff Correspondent)

HARRISBURG, Dec. 15.—The jangle of cash registers will provide stiff competition for "jingle bells" in Pennsylvania this year.

With heavy employment, record-high wages, and wartime shortages of many goods overcome, Christmas sales were expected to climb to astronomical figures, Secretary of Commerce Orus J. Matthews reported today.

"There is every indication that Christmas spending this year in Pennsylvania will be considerably higher than in 1946," he said.

Conservatively, he added:

Will Set New Record

"It probably will set a new high record."

Unprecedented "wants"—born of war and post-war scarcities—among the state's citizens is a leading cause of high spending, Matthews claimed.

"There is a larger supply of some articles the people wanted to buy all through the war, but couldn't get," he explained.

"This is especially true of conveniences for the home, such as vacuum cleaners, high-quality radios, refrigerators, washers and ironers," he said. "It is just as true of men's suits and shirts where the buyer now really has a choice."

Demand Is Heavy

The demand for newer types of merchandise, particularly women's clothes is another reason for skyrocketing sales, Matthews emphasized.

"This includes changes in style in women's wear—darker hosiery and longer dresses," he declared. "It also includes new products, such as television receivers."

The public has more income this year and has "shown a willingness to use it" to buy things only recently available, he asserted.

"Compared with 1946, each month of 1947 has shown increases in employment, higher average

weekly earnings and upturns in retail sales," he pointed out. "Higher prices, of course, have helped to swell the increase in dollar sales in retail stores."

This combination of greater supply, higher wages and, of course, higher prices, indicates the 1947 Christmas buying season "probably will be the biggest spending period Pennsylvania has ever seen," he concluded.

Plan Party For Children Of Power Company Employees

Employees in charge of this event are Alfred E. Walker, chairman, C. H. Aubel, H. C. Knittel, W. H. Cummings, A. E. Herberg, Charles Meade, Arthur Guy and Paul Papenhausen.

Similar parties will be held in Sharon and Greenville for the children in those Divisions of the Company.

U. S. And Mexico Agree On Duties

WASHINGTON, Dec. 15.—(INS).—The United States and Mexico agreed Saturday to permit Mexico to increase duties almost generally on items imported from the United States because of the acute world dollar shortage.

The agreement will permit Mexico to impose ad valorem or compound rates on items on which specific rates were agreed to in the tariff lowering trade agreements act of December 23, 1942.

It was pointed out that by imposing ad valorem rates the duties are increased proportionately to the higher dollar value of the goods.

MAID-OF-HONOR

"I am to be maid-of-honor for a very close friend who is to be married in a simple affair. She is wearing a street-length dress and her marriage will take place in the minister's house, followed by a small reception, in the mid-afternoon. Just the immediate families will be present. Please tell me what my duties are. What should I wear? What kind of wedding gift should I present?"

Answer: Your duties will be few since the wedding will be so informal and will consequently require little preparation. Give a shower for the bride, if you can do so. If you cannot do this, you should, then, entertain for her and her family. Make your wedding gift something for her new home—a piece of silver, a quilt, a blanket, a lamp or some similar useful household item. Wear informal clothes—either a street-length dress or suit—since the bride will be informally dressed. The maid-of-honor should always dress in the same type of clothes as the bride; that is, full-length formal or street-length informal.

Question: Are wedding gifts usually sent to a divorcee who remarries?

Answer: Very close friends send presents to the widow or divorcee who remarries, but general acquaintances usually do not, unless they especially wish to do so. There is no obligation to do this at the second marriage, unless

there is a reception to which you are invited.

Question: Is it ever permissible when introducing two persons to say: "Mrs. Jones meet Mrs. Smith?"

Answer: No. The accepted form is "Mrs. Jones," pause and then say "Mrs. Smith." Also, never say: "I want you to make the acquaintance of Mrs. Smith," or "I want you to meet my friend, Mrs. Smith." In calling Mrs. Smith your friend, you imply that Mrs. Jones is merely a stranger.

Present your problems to Miss Markel who will promptly mail personal replies to questions from readers inclosing stamped, self-addressed envelopes.

Before World War II Britain produced only one-third of its food.

Relief At Last For Your Cough

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics. CHRISTMAS GIFT

In December people are busy about Christmas gifts. The stores are full of all sorts of presents.

Hankies seem to be as popular as ever. If you can't think of anything else, you are always pretty safe on giving a hankie. You do not have to take it back because it is not a good fit.

When it comes to sanitation, the hankie is quite a problem. Colds

and coughs and other diseases usually need a hankie.

Poor old hankie takes a beating. He gets pretty full of germs.

If he is not looked after pretty carefully he can surely spread those germs around.

Mom blames her cold on the draft on her neck at prayer meeting but the little old hankie keeps mum.

Urban Real Estate Financing Soars

WASHINGTON, Dec. 15.—(INS)—The Home Loan Bank board reported the urban real estate financing soared to a new high of \$1,103,000,000 in October.

The record financing, limited to mortgages of \$20,000 or less, represents a rise of \$80,000,000 over September and mainly reflects loans on private homes.

The HLB said that the dollar volume of mortgages in the first

10 months of 1947 was up eight per cent above 1946, although the number of mortgages recorded was about the same. The size of the average loan increased from \$4,169 to \$4,487.

Browns Retain AAC Crown; Eagles Rout Packers; Cardinals Win

Eastern Title Play-Off Next Sunday In National Between Philly-Steelers

Eagles Stay In Fight By Whipping Packers, 28-14; Chicago Cards Edge Bears, 30-21 For Western Toga; Yankees Fail Second Time.

By LES CONKLIN
(International News Service Sports Writer)
NEW YORK, Dec. 15.—(INS)—Form in the National Football league continues to take a beating right down to the final game. Whereas yesterday's all-American conference finale ran strictly according to the script with the champion Cleveland Browns again demonstrating their unbeaten supremacy over the New York Yankees, upsets marked the two crucial N. F. L. games.

Both the Chicago Cardinals and the Philadelphia Eagles overcame their unhappy faculty of blowing the big ones and got hot in a hurry. The Cardinals, scoring on the first play of the game and rolling up a 27-7 lead at half time, won their first western title by trouncing the Bears 30 to 21 before 48,632 fans at Chicago. Elmer Angsman scored two touchdowns for the winners.

Philadelphia also got the jump on Green Bay and finally beat the Packers, 28 to 14. Steve Van Buren scored three touchdowns and racked up 96 yards for a new rushing record of 1,008 yards. The Eagles thus tied the Pittsburgh Steelers for first place in the Eastern division. Next Sunday's play-off at Pittsburgh for the title will call for a sudden death period should the clubs be tied after 60 minutes.

Final Game Dec. 28
As a result of this, the final play-off for the NFL title in Chicago has been pushed back to December 28, almost as late as the Rose Bowl game. Maybe the admirers of the Cardinals and ultimate eastern champions had better send them skis for Christmas presents.

In other N.F.L. finals, Washington crushed the Boston Yanks, 40 to 13, and the Los Angeles Rams ran over the New York Giants, 34 to 10.

The 14 to 3 triumph registered by Cleveland over the Yankees in the AAC title clash before 61,879 at Yankee stadium was marked by the utter ineptitude of the New Yorkers.

Spec Sanders of the Yankees, billed as the game's greatest player, was a complete flop, perhaps due to his bad ankle. He picked up a mere 40 yards from scrimmage and failed to score a touchdown for the first time this year.

Big Marion Motley and Otto Graham starred for Cleveland. Motley leveled off the New York linemen like a steamroller in racking up 109 of the 172 Brownie

Pulaskis Rack Up Third Win

K. Pulaski "Big Five" basketball team, city-county champions two years in a row, continued its sensation victory skein to three straight, Sunday at the K.P. Hall before a capacity crowd, by trouncing the strong Delta Club of Rankin, Pa., 62 to 41.

It was the first homecoming battle for the "Big Five" at their own court this year and the fans that jammed the place cheered their favorites lustily. There were plenty of stars in the game, three in particular—Joey Cooper, Charley Rea, and Waseck, being outstanding, with 46 of the points between them, Cooper with 17, Waseck with 16, and Rea with 13.

Parade Of Stars
The Rankin Club led the first period 8 to 5 and the half found the Al Gonet coached machine on top 23 to 19. The end of the third period it was 39 to 30 in favor of the "Big Five."

The "Big Five" is being tabbed one of the strongest in western Pennsylvania nad Eastern Ohio. The fans enjoyed the game every minute. It was parade of stars pitting their prowess against each other.

Best in the Rankin lineup was E. Dettire and S. Supra, with 15 of the points. Wednesday the K. P. floor the "Big Five" goes after its fourth win of the year by playing the famous Alliance Moose at 8:30 o'clock. There will be a prelude at 7:30 o'clock. In the prelude yesterday the K. Two League Games At Arena Tonight

The City-County league basketball games will be played at the Arena floor this evening, the first game at 7:30 o'clock will find the Shenango "Y" battling the Eagles Club, and the nightcap at 9 o'clock will have the Bessemer Legion playing the Forest A.C. Sunday at the Arena floor the Bessemer Legion defeated the VFW team in a thrilling battle 48 to 43, with P. Razzano, Larry Spears, Tasota, Johnson and Pelti starring.

The Eagles according to Coach Bill Patton will haul the Shenango "Y" out of first place tonight. If the Eagles win, Bessemer can take over first place. A large crowd will want to see this exciting league game tonight. The Shenango "Y" is "hot" at the moment, being undefeated in three previous starts. The Eagles have won one and lost one.

Tech Passers Titan Victims

Skiboos Give Unlooked For Resistance Before Succumbing, 55 To 45

PITTSBURGH, Dec. 15.—Carnegie Tech's basketball team gave a highly favored Westminster five more than they bargained for here Saturday night before bowing to the Blue and White men, 55-45.

The Skiboos were poor foul line marksmen, missing 19 charity throws kept them from making the score much closer. At times too, the Donahoe flippers, with the lead in sight, and the Titans in a scoring lapse, beat their own cause by slipshod play.

The Washabaughmen, with a height advantage and showing more experience, glided to a 12-5 first quarter edge but the Tartans, mainly on their alert ball control, came back to knot the count at 12-all and trail only 24-21 at the half.

Titans Spurt
Tech hopes faded in the second half when their big center, Mike Theodore, was banished and the Titans spurred to lead, 39-31 at the end of the third canto. Westminster outpointed the Pittsburghers, 16-14 in the windup frame.

The veteran Don Heddeston paced both teams with 16 markers, with Chet Dembinski throwing in 14. Riehl was high for Tech with 10.

Coach Washabaugh used a total of 12 lads in the fray while Tech called upon 11 for action. The Titans will play host to Millersville Teachers tonight. On Thursday and Saturday, the Blue and White will be on the road meeting Geneva at Beaver Falls and St. Francis at Altoona.

Millersville will come half way across the state for the fracas. Last year the Titans managed to measure the Teachers 64-39 on what later turned out to be a disastrous eastern invasion for the Westminsterites. CCNY walloped the Titans right out of national contention.

DEMARET SHOOTSCORCHING 267 TO WIN TOURNEY

MIAMI, Fla., Dec. 15.—(INS)—Jimmy Demaret, flashily-dressed Ojai, Calif., pro, today banked the top purse in the \$10,000 Miami Open Golf tournament after firing a record-equalling 72-hole 267 to capture first place.

Demaret's victory sent his links earnings for the year to approximately \$29,000.

The 267 posted by Demaret equalled the Miami Springs Country club course record for the four rounds. It was 13 strokes better than par.

Full Cage Card Tuesday For County High Schools

With all but a handful of the county's schools finding the pre-season cage grind a rocky one, no respite is in sight as a heavy card is scheduled for Tuesday evenings.

Two of the three unbeaten combines, New Castle and Ellwood City, go to the post, with East Brook, class "B" kingpin so far, idle. Coach Bill Douglass' Red Hurricane faces its stiffest test of the infant season as they entertain Butler's unbeaten Golden Tornado at the G. W. court. The Johnny Ifft lads have copped their last 10 outings in a row and have humbled four foes so far this campaign.

Ellwood lays its four-game streak on the line against Kittanning at the "Kittie" floor and is hoping to keep its escutcheon unsmeared. **Wampum Is Test**

Wampum, playing 500 ball so far, will bang into the powerful Midland Leopards at the valley court and will be going against a team that shellacked Shenango last Friday night.

Bessemer draws a toughie in the towering Mustangs of Mercer, county champs last year and every bit as classy this season. The game will be staged on the Cement City boards.

Princeton meets Zelienople, a team that whipped them in the first meeting, and Union clashes with Freedom, a valley power. Shenango's battle with Plaingrove has been cancelled.

In the preliminary game the Coach "Dad" Patterson Elks Reserve defeated the Kings Men of New Wilmington 39 to 35 in a thrilling contest.

Tuesday the Elks will go to New Brighton gym to battle the New Brighton Legion team, it was announced.

GIRL BOWLERS

IN THIRD PLACE;

ROLL AGAIN FRIDAY

Elliott Stealers, local team of the Girls tri-county duckpin league, suffered another setback last week losing two out of three games to the Midland News girls team. The games were played here.

The local team unfortunately

was handicapped with an injured player, Miss Rose Mooney, captain of the team, and top pin marksman for the local players.

Miss Mooney stated however that the team is still in third place. This Friday the local travel to Moken, Pa., for their next contest, and hope to come away with the winning laurels.

SAVE BOY, APPARENTLY DEAD

FOURTEEN-YEAR-OLD Richard Heyard, "apparently dead" for an hour and 10 minutes during a chest operation, embraces his mother in their Louisville, O., home after 31-day stay at Cleveland's Lakeside hospital. Successful use of new resuscitation method by Dr. Claude S. Beck of Western Reserve university restored the youth's heart to regular beat by massage and injections. Story is reported in Dec. 13 issue of Journal of American Medical Association. (International)

Barbers Idle: Men Grow Fuzz

HARRISBURG, Ill.—(INS)—Barber shops in Harrisburg are finding a decided decrease in business as far as shaves are concerned.

Harrisburg men are growing beards in celebration of Saline county's October Centennial. They drew up a set of iron-clad rules and penalties for violations—in case some men weakened and tried to

do away with their stubby whiskers. The men admitted, however, that they really feared the women's opposition—they couldn't tell what their wives might do or say.

But Harrisburg women, in the true spirit, had no objection to the darkened jaws and chins which began to appear. One went so far as to term the beards "cute."

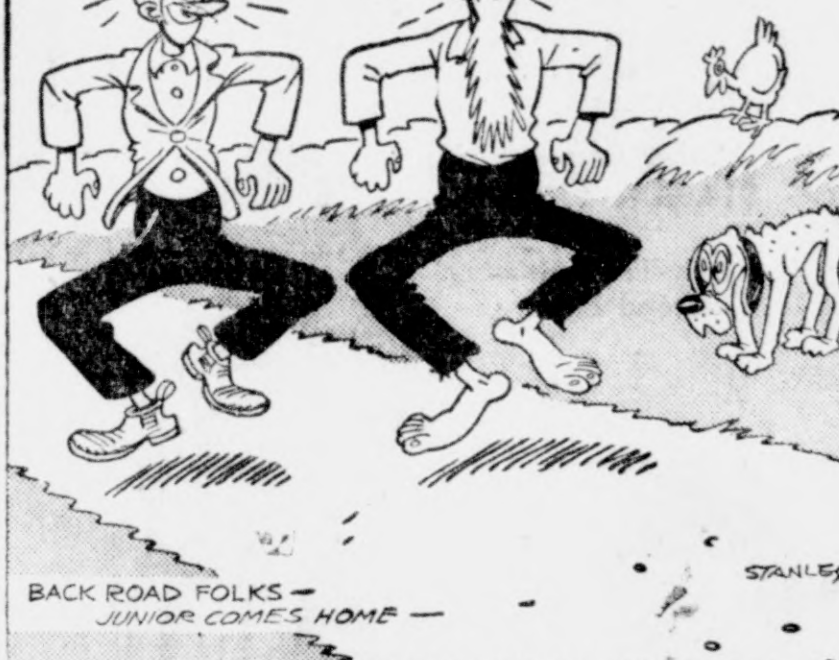

The early Greeks used the word meteor to mean atmospheric phenomena in general, such as clouds, halos and rainbows, as well as shooting stars.

STOCK MARKET TREND HIGHER

NEW YORK, Dec. 15.—(INS)—Stocks were higher and fairly active in forenoon trading today, continuing the rally which lifted industrial averages more than three points last week.

Most rails were a bit higher. Utilities were irregular with Electric Power and Light off and Consolidated Edison of N. Y. up. Aircraft manufacturing issues opened hesitant but strengthened in the second hour. Coppers and Chemicals improved. Stronger special issues included Johns Manville, U. S. Rubber, American Car and Foundry and Standard Brands.

Cotton futures crept forward about 25 cents a bale. Curb shares and bonds were firm.
